ABOUT ME

I went from soul-level pain and energetically repelling the masculine to being described as having an "everlasting presence" - and you can too.

Through a series of clearings and activations, I will show you how to move into multidimensional beauty from the inside out.

What can illumination do for you?

The Illumination program is a series of powerful energetic activations that helps you come into the true soul essence of your feminine glory and living light expression of higher exalted feminine consciousness that is sourced inspiration for the masculine.
